## **PLANT'S CHOICE FFM 200**

### **PRODUCT REFERENCE: FFM 200**

**(Please state the product name and reference number when specifying and/or ordering)**

Plant's Choice<sup>®</sup> FFM 200 is a quality mulch material that is specifically sized, cured and blended for use as a superior landscape cover material.

It is produced from ground clean woody brush and landscape trimmings that is screened through 2-inch screens. It is then cured to PCI specifications in order to achieve its brown color. There may be a small percentage of larger/finer composted plant material. This product is generally free of large pieces and trash (e.g. plastic pieces). Its lighter weight, suitable moisture range, sizing and high consistency makes it easy to handle and highly efficient for use with Plant's Choice Mulch Blowing Equipment.

This mulch is an excellent material to use for achieving a rustic and natural forest floor look. It is suitable for use as a ground cover for weed abatement and water conservation. It is ideal for slopes and pathways. It is easy to apply and to use with drip irrigation installations.

This mulch is processed at a permitted mulching facility.

Please review a sample of the material before ordering.

A Plant's Choice professional is available to answer any question(s) you may have and/or to assist you with the use of Plant's Choice<sup>®</sup> FFM 200.
