PLANT'S CHOICE[®] ORGANIC SOIL AMENDMENT

PRODUCT REFERENCE: OSA100

(Please state the product name and reference number when specifying and/or ordering)

Plant's Choice[®] Organic Soil Amendment is produced from vegetative material at a permitted facility. The vegetative material is high in organic matter, micronutrients and microorganisms. It is dark earthy brown in color and possesses a pH of between 5.8 and 7.5.

Vegetative material is subject to size reduction using a grinder prior to maturing. Upon completion of the process, the material is screened using half (1/2) inch screens. A small percentage of larger/finer material may be present.

Organic Soil Amendment is screened to meet Plant's Choice specification. Overall, there is high consistency in the quality of the material.

This product is excellent as a soil amendment for mixing into existing soil or making topsoil blend/planting mix. It can be applied with Plant's Choice Mulch Blowing Equipment.

Please review a sample of the material before ordering.

A Plant's Choice professional is available to answer any question(s) that you may have and /or to assist you with the use of Plant's Choice[®] Organic Soil Amendment.

Specification data subject to change.

Limitation of Warranties: Seller makes no warranty of any kind, expressed or implied, regarding the materials; and all warranties, including any implied warranty of merchantability and any implied warranty of fitness for a particular purpose, are hereby excluded. All sales are subject to the Plant's Choice Limitation of Liability Terms, Mulch Blowing Terms, and General Terms and Conditions.
